

Introducing the Invisalign Virtual Care Program!

This program allows you to upload photos to the Invisalign app each month as opposed to having you come into the office for scheduled appointments.

It allows us to stay connected wherever you may be.

It is convenient!
You can take photos at home and won't need to come in to the office as frequently.

Frequent feedback enables our patients to feel confident about their treatment and can improve treatment results.

If you choose this option, there will be occasional appointments in the office for possible adjustments to your aligners, scans, or to polish your teeth. We can also schedule special appointments if for some reason you wish to be seen in person or want to discuss something in greater detail with one of our orthodontists.

We look forward to going into more detail about this program on the day you start your Invisalign treatment with us.
